## Casegood Construction

The Joerns reputation for quality construction and superior casegood design stems from our extensive experience with senior living environments. Our resident room furnishings utilize design components that address the needs of both residents and staff.

## Casegood Features

Captured, ventilated back panels fit into precise grooves for a stronger unit than traditional stapled backs; ventilation holes reduce musty odors and mildew in drawers.

Adjustable shelves on wardrobes and hutches can be easily configured depending on storage needs.

European-style stainless steel hinges pull doors snugly shut.

Stylish fixed-bale hardware accommodates hands with limited mobility.

## Casegood Options

**Top Drawer Security Lock**  
Protect the privacy of residents. Finished in brass or nickel, they are available for bedside cabinets and three-drawer chests.

**Drawer Inserts**  
Molded corners make it easier for residents to grasp small items and make cleaning a breeze for staff. Available for bedside cabinets and three-drawer chests.

**Four Casters**  
Offer greater flexibility for quick and easy movement of furnishings. Set includes two locking casters, and is only available for bedside cabinets and three-drawer chests.

## Options for any décor
