

New UltraWide Kit Offers Additional Comfort and Safer Repositioning

The New UltraWide Kit, made especially for the new UltraCare XT®, helps you deliver flexible care solutions and eliminate specialty bed rentals. One great feature provides additional safety and comfort.

- Manage 99% of resident population with just one bed
- Add nearly 20% to sleep surface width offering room for a more comfortable night's sleep
- Additional space makes repositioning much safer for both the resident and the caregiver
- Facilities can choose from a 39" or 42" extension kit and corresponding Joerns' PrevaMatt to complete the wider bed system
- Safe working load of 500* lbs allows you to have the widest 500 lb safe working load bed on the market
- Joerns Healthcare, as a solutions provider, offers a guarantee that your new Joerns Bed System is fully compliant with U.S. Food and Drug Administration's (FDA) "Hospital Bed System Dimensional and Assessment Guidance to Reduce Entrapment" released March 10, 2006. A Joerns bed system consists of Joerns Beds, Joerns Panels, Joerns Assist Devices/Side Rails and Joerns Healthcare Therapeutic Foam Mattress as directed.

No tools installation of the UltraWide kit can be done by simply adding the 39" or 42" wide extensions and inserting two pins in each section. [See User Manual for more detailed instructions.]

A Joerns UltraWide head panel (seen above with our F17 assist handle) meets IEC Standard and addresses FDA Entrapment Guidelines when used with the UltraWide Kit.

A standard head panel used with the UltraWide Kit and the F17 assist handle does not meet the IEC and FDA Entrapment Guidelines (as seen above).

Add a 39" or 42" Joerns Surface.

8" Extender Option (as seen above).

**This is total weight counting resident/patient, mattress, bedding, accessories and any other equipment or persons likely to be on bed.*

Our new UltraWide Kit helps you redefine your care environment while delivering safer and more comfortable care.
