Features and Benefits

Control Unit Therapy Features

- Continuous bilateral rotation with low air loss for patients suffering from various types of respiratory failure and requiring moisture management
- Three modes of operation – Autoform, Turn and Static
  - Autoform assists patients and caregivers during patient transfer and treatment
  - Turn feature helps promote pulmonary drainage and is appropriate for patients who require mechanical ventilation
  - Static control settings for eight levels to maximize patient compliance and promote healing
- Turn Angles of ¼, ½, ¾ and “Full”
- Turn Time options of 10, 20, 30 and 60 minutes
- Four turn option settings: left, right, dual, or none
- Automatic panel lockout to avoid unwanted or accidental adjustment
- Closed loop control system eliminates concerns of changes in mattress interface pressure due to patient repositioning and ambient temperature changes

Mattress Therapy Features

- Three-zone system to prevent “bottoming out” – head, torso and foot
- Twenty dual chambered therapy cells with eight-inch deep construction for superior pressure redistribution
- Side bolsters support patient during rotation
- Therapy pad with four unique qualities:
  - Fluid proof
  - Moisture vapor permeable
  - Infection control treatment
  - Low friction and shear surface
- Lower safety cell with two-inch air support remains inflated for up to 12 hours in the event of a power failure
- Rapid CPR deflation with quick disconnect hose feature at the control unit interface

Clinical Indications

Pressure Relief: Stage I – IV Pressure Ulcers; Moisture Management Required; Pulmonary Conditions; Rehabilitation; Burns; Neurology; Dermatology; Amputations
Pain Management: AIDS; Arthritis; Oncology

Electrical Specifications

- 90 -120V AC, 60 Hz, 2A
- 220 -240V AC, 50 Hz, 1A

Environmental Conditions

- Operating Conditions
  - Ambient Temperature: +10ºC to +40ºC
  - Relative Humidity: 30% to 75% Non-Condensing
- Storage and Shipping Conditions
  - Ambient Temperature: -10ºC to +40ºC
  - Relative Humidity: 10% to 100%

*Mattress weight capacity only; total weight must not exceed bed frame manufacturer’s specified load capacity.
Joerns reserves the right to change specifications without notice.
