Convertible Transport Chair

Transferring and mobilizing bariatric patients can be quite a challenge, but with the CareChair, it does not have to be. This convertible transfer chair adjusts from full upright sitting position to full stretcher and all points in between to facilitate a lateral transfer. During an emergency, the CareChair converts from the chair to stretcher quickly and easily making it indispensable in an ICU, CCU or emergency room. With powered tilt-in-space, the CareChair provides effortless repositioning. When tilted back, the chair supplies a more secure and comfortable sitting position and when tilted forward, it can aid the patient in standing from a seated position. The full range of motion offers maximum patient comfort for those with respiratory conditions, head and neck injuries or orthopedic disorders.

A single solution for your bariatric patients’ mobility and safer transfer

- Advanced pressure redistribution and comfort adjust with powered articulation
- Full-range adjustment from recline, to transport chair, to stand assist positioning.
- Stretcher position ideal for use in lateral transfers
- Trendelenburg position capability for quick patient care
- One-touch center lock-and-steer casters for straight-line transport
- Large 6" casters for ease of transport
Available Sizes

- 24" wide seat with 550 lb capacity
- 27" wide seat with 650 lb capacity
- 31" wide seat with 850 lb capacity

Features

- Available in three sizes to accommodate a full range of patient size
- One-touch center lock-and-steer casters for straight-line transport
- Convenient battery powered operation
- Trendelenburg position capability
- Separately adjustable elevating leg rests
- Adjustable height arm rests can be used as side rails
- Can be used in radiology eliminating multiple transfers
- Large 6" casters for ease of transport
- Compatible with most para-transport vans
- Captive IV pole and O2 tank holder
- Latex free

Applications

Includes:

- Emergency room
- Med-Surg and ICU
- Rehab and orthopedic floors
- Bariatric Care Units
- Para-transport for physician visits
