

THE POWER TO
SIMPLIFY CARE

Joerns®
HEALTHCARE

Empower Your Future With Simplified Care

A vertically integrated manufacturer since 1889, Joerns tenure and experience are unmatched in the delivery of long-term care equipment sales and support services. It is our mission to make affordable, accessible solutions available to restorative care providers and their patients that are effective, reliable, and safe.

Our Values

At Joerns, we are **OTHER-CENTERED** (You-focused)- we think and act on behalf of others over ourselves. We are **HUNGRY** - ambitious, resourceful, and never satisfied; we constantly pursue better. We are **HUMBLE** - confident in our abilities but equally committed to constant growth and improvement. We are **INTELLIGENT** - adding value by being attuned emotionally, fully engaged intellectually, and bringing all our experience to every interaction.

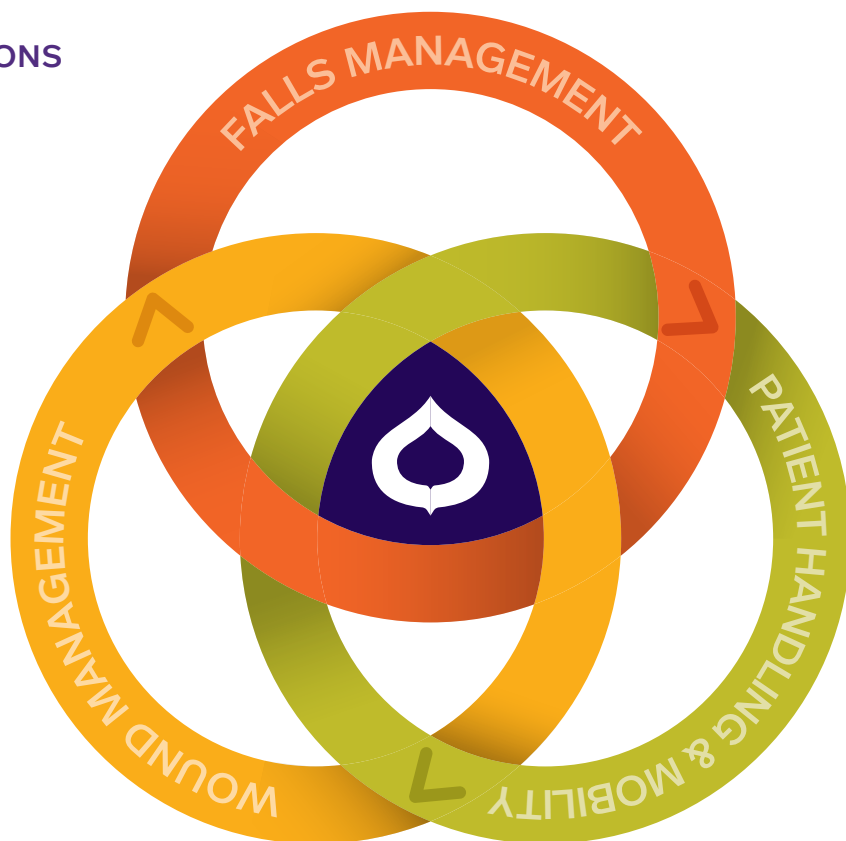

Accredited by The Joint Commission

BECAUSE PREVENTION ISN'T A ONE-SIZE-FITS-ALL SOLUTION

PATIENT-CENTRIC RISK INTERVENTIONS

We're uniquely positioned with an agile portfolio of unique capabilities, innovative technology and evidenced-based therapies to tailor solutions to your needs and the needs of your patients:

- Bed Frames
- Patient Lifts & Repositioning Aids
- Therapeutic Support Surfaces
- Negative Pressure Wound Therapy
- Clinical Services
- EMR Connectivity
- Chronic Care Management
- Digital Wound Imaging

WHY JOERNS? OPTIMIZING YOUR VALUE CYCLE

Clinical Outcomes

At the forefront of innovative healthcare technologies and evidence-based solutions:

Joerns study shows adding 3" to both sides of the bed can reduce fall risk by 36% (42").¹

Joerns proprietary Dolphin® Fluid Immersion Simulation® system is clinically equivalent to air fluidized therapy system in 2022 Northwestern University study.²

Operational Outcomes

Vertically-integrated designer, developer and manufacturer that can provide a total solution for standardized care and optimized outcomes.

Best-in-class manufacturing expertise and quality management lowers total cost of ownership and asset management challenges related to repair.

Financial Outcomes

Equipment is designed for ease-of-use in delivering safe, effective and efficient care, reducing workers compensation claims and improving patient satisfaction.

Portfolio of configurable products addresses the widest range of patient types and care protocols, resulting in higher reimbursement while supporting an attractive mix of private pay patients.
